

THE STORY OF PANAMA

"Learn One Thing Every Day"

No. 2. AT WORK IN CULEBRA CUT

Copyright, 1913, by The Associated Newspaper School, Inc.

Lookout for the dirt train! This is heard all over the isthmus. No matter what else may be on the rails, it must "sidetrack" to let the dirt trains by. If a passenger train of the Panama railroad stops between stations, the reason given for the delay is usually, "We have taken a siding to let the dirt train by."

Whether these important trains are moving over the many miles of tracks built especially to enable them to reach the various dumping grounds, or running over the main line of the Panama railroad, it is all the same. Nothing can stop them, not even Colonel Goethals' private car. They have absolute right of way. All through the hot day, until the tropical sun has sunk behind the horizon of silhouetted palm and coconut trees, the dirt trains are constantly rushing along from the great excavation to the dumping grounds. They are not even still when being loaded; for as the great steam shovels pile on the dirt the train slowly moves along. In order that the next dipper filled with earth can be dumped upon an empty part of the car, and when the last car is loaded, off to the dump it goes, at a speed that would do credit to an American train.

Upon reaching its destination, no time is lost in unloading. A great, fast plow-like affair scrapes the dirt off the entire train of twenty cars in less than ten minutes and back for another load it goes.

There are two types of trains used on the canal. One is composed of steel cars automatically dumped by compressed air from the engine. The other style is composed of ordinary flat cars. Unloading is done by this plowlike arrangement, drawn along the length of the train by a

cable. All through the years of yellow fever epidemics and the annual floods during the rainy season the dirt trains have never stopped. The men who operate them seem to be inspired by the greatness of the undertaking. Nothing short of death can stop them in their fierce efforts to keep the dirt moving.

Hundreds of these trains leave Culebra Cut every day, and a great many more receive their loads from various other excavations along the canal. Yet so perfect is the system of operating that an accident rarely occurs. In addition to the block system in use on the Panama railroad and some sections of the improvised roads, flagmen are placed at all cross-overs and sidetracks. One colored flag controls the loaded train, and one of another color the empties. The greatest credit must be given the operators of these trains; for they have been on the job day in and day out, through periods of yellow fever, malaria, and other tropical diseases, to say nothing of the many times they have kept the trains moving when floods during the rainy season had completely covered the tracks.

Every day a different human interest story will appear in the Standard. You can get a beautiful intaglio reproduction of the above picture, with five others, equally attractive, 7x9 1/2 inches in size, with this week's "Mentor." In "The Mentor" a well known authority covers the subject of the pictures and stories of the week. Readers of the Standard and the Mentor will know art, literature, history, science, and travel, and own exquisite pictures. On sale at Spargo's Book

tional period, during which our minds are turned to the Master, and we are instructed by some of the best speakers in the land. We have our theology classes, where principles of faith and true religion are taught. Our choir and orchestra are always at hand to render appropriate music. In our class work we receive general education, and in addition instruction along such lines as we desire to follow. Everything is congenial and conducive to the making of the modern man or woman. In short, we are proud to say, our school fulfills the requirements of a modern writer, who says: "The school should teach Aristotle's dictum that 'man is a social animal, and must inculcate the doctrine of service. It must teach him the possibilities as well as the dangers of a highly organized society. Questions of public health, public morals and public duties must demand increasing attention.'"

President David O. McKay of the Academy board of education, after paying a beautiful tribute of respect to the class for a high standard of moral and intellectual attainment, and giving some excellent advice, presented diplomas to the following graduates:

HAIL STORM TO THE NORTH OF OGDEN

A freak of the storm of yesterday afternoon was a downpour of hail in the north part of the city, extending from Seventeenth street to Five Points, considerable damage being done to garden stuff.

The hailstones were not firm, but that they were sufficiently hard and heavy to beat down and tear to pieces tender plants. No damage was done in the orchards.

Former Councilman J. B. Dana, who has an extensive garden on Eleventh street, says that had the hailstones been as hard as last year, nothing would have been left of gardens, orchards or any other crop. He says that the hail was wet and soft, yet at that cut into shreds some of the tender plants, such as cabbage and lettuce.

DIRECTORS OF CLUB ARE PRESENT

H. M. Rowe, I. L. Reynolds, W. D. Brown, J. W. Abbott and E. W. Matson, directors of the Ogden Baseball association, went to Salt Lake yesterday and had the satisfaction of seeing the Ogden team trim the arrogant Salt Lakers.

The pleasant sensation gave favorable opportunity for the growth of the baseball bugs in their systems. Consequently, when the time came today for the train to leave Ogden for Salt Lake shortly before the game, those gentlemen were on hand to purchase tickets for the trip to Lucas park. There were several other fans on the 1 o'clock Bamberger.

The average man fears a storm almost as much as he fears his wife.

DAY OF MISERY IN POLICE COURT

Frank Jones, J. J. Ryan, and Thomas Randolph had their names written upon one complaint read by Clerk Fulton in police court this morning. Vagrancy was the charge and each pleaded guilty after slight hesitation. It was alleged that the three had been living idly, and were making a living in a small way by begging, or selling cheap jewelry in their personal effects were found begging cards and a cheap ring made to look like a wedding ring.

Thomas Randolph appeared lame and walked with a cane. When asked as to his trouble, Randolph stated that he had been run over by an automobile. The driver, he said, had run the wheel of the auto on his ankle and then stopped the car. Instead of backing, Randolph stated that the driver continued on over. He could not explain what difference it would have made in the injury sustained. Although the recent lameness did not coincide with the finding of the begging card, Judge W. H. Reeder took the man's case under advisement.

Jones was given 10 days after he stated that he had sold a ring for 35 cents and Ryan was given an opportunity to leave for Salt Lake where he said he had a job.

From the appearance of W. J. Wilson in court this morning the onlookers were expecting at any moment to see the man launch off into the ravings of a victim of delirium tremens. He could barely stand and shook so he could scarcely speak.

Wilson was charged with begging and the patrolman stated that he begged whiskey instead of money. The man confessed that he had been on one hilarious spree for several days. When Judge Reeder sentenced him to serve five days in order to receive medical treatment, he tried to walk, but had to be assisted by Jailor Anderson.

The case against Seth Smith, charged with disturbing the peace, was dismissed when John Van Namee, charged with the same offense, pleaded guilty and took all the blame. Van Namee was given a sentence of 15 days, or \$15, and told to report to the judge each week.

LON ROMNEY IS TO COACH THE HIGH SCHOOL

Lon Romney, star football player and athlete of the University of Utah, has been engaged by the board as coach for the Ogden High school and he will take up his duties next fall.

Upon invitation of Superintendent Mills, Coach Romney came to Ogden from Salt Lake this morning and was introduced to the students of the high school at a general assembly. The new coach was received with an ovation by the students who have read of, and witnessed, his ability in athletic lines. Mr. Romney was introduced to the school by Supt. Mills and Principal Henry Peterson also gave a short talk.

The new member of the High school faculty is a senior in the University of Utah and will receive his A. B. degree at the commencement exercises next week.

Immediately after his introduction to the students of the school, Mr. Romney returned to the University where he is completing his final examinations.

"THE TWO GLASSES"
ELLA WHEELER WILCOX
There sat two glasses filled to the brim
On a rich man's table, rim to rim:
One was ruddy and red as blood,
And one was as clear as the crystal flood.

Said the Glass of wine to his paler brother,
"Let us tell tales of the past to each other—
"I can tell of a banquet, and revel and mirth
Where I was king, for I ruled in mirth.
And the proudest and grandest souls on earth
Fell under my touch, as tho' struck with blight.
From the heads of kings I have torn the crown;
From the heights of fame I have hauled men down.

"I have blasted many an honored name—
I have taken virtue and given shame;
I have tempted the youth with a sip, a taste,
That has made his future a barren waste."

For greater than any king am I,
Or than any army under the sky.
"I have made the arm of the driver fall,
And sent the train from its iron rail;
I have made good ships go down at sea,
And the shrieks of the lost were sweet to me.
Fame, strength, wealth, genius, before me fall,
And my might and power are over all.

"Ho! ho! pale brother," laughed the wine,
"Can you boast of deeds as great as mine?"
Said the glass of water: "I cannot boast
Of a king dethroned or a murdered host.
But, I can tell of hearts that were
By my crystal drops made light and glad."

"Of thirsts I have quenched and brows I have averted
Of hands I have cooled and souls I have saved.
I have dashed through the valley and dashed down the mountain,
Slept in the sunshine and dripped from the fountain.
I have burst my cloud fetters and dropped from the sky;
And everywhere gladdened the landscape and eye.
I have dashed the hot forehead of fever-

Captain Louis J. Van Schaik.

Captain Louis J. Van Schaik, U. S. A., has just been awarded the congressional medal of honor for distinguished gallantry in action, the highest mark of honor that the government can bestow on its soldiers. The occasion for which he was rewarded was in the Philippines when at the head of a detachment of sixteen men they came upon a large band of Moros. Realizing that if he gave the order to retreat his men would be shot down, Van Schaik ordered them to charge and them to a successful encounter. Three natives fell as a result of the valorous deed.

COMMENCEMENT WEBER ACADEMY

Continued from Page Seven.)

"The conditions of the future depend upon the training of the young today. And so, parents, send your boys and girls to a church school, where the soul as well as the mind and the hand will be guided. Ever since we entered here we have found that character building is distinctive of church school work. If you send your children here you will not need to fear for their proper development, for we know that they will be guided daily, as we have been, along the paths of righteousness. I care not what you may intend to bequeath to your children, you can leave them nothing so precious, so sure to bring returns of the most value, as a clean, upright character, for if character be fashioned rightly the course of the future of your children is clear, and you will never have cause in the future to be ashamed of them."

"Here at Weber we have our devo-
